

Comprehensive Home Care Services

ONE CALL. HOME CARE FOR LIFE.

Comprehensive home care solutions...

What began with a single nurse, Anna B. Hillock, setting out on a bicycle in 1898 to deliver home care to her neighbors, is now one of the state's leading providers serving clients in more than 140 communities each day. Along the way, VNA has also greatly expanded its scope of services and embraced advances in medicine and technology. Today, residents of Morris, Hunterdon, Warren, Sussex, Somerset, and Passaic Counties know that one call to VNA opens the door to quality, patient-centered home health care delivered by dedicated, supportive professionals.

We serve the homebound, as well as family members who often function as their primary caregivers.

When you select VNA as your home health care provider, you are choosing:

- One of the top providers in the state based upon patient outcomes.
- An agency that consistently earns nearly perfect ratings in independent client satisfaction surveys.
- A highly respected organization with a long, distinguished history as leader and innovator in the field of home health care.

A trusted source...

Testimonial letters are just one of many ways we receive feedback from our clients and their loved ones. Here are excerpts from just a few:

"I received such wonderful care and attention from my OT. She worked with me and helped me get past both my physical and emotional hurdles during such a crucial stage of my recovery. I am truly grateful for her time and involvement in my journey. She is dedicated, caring, professional, and extends herself to her patients."

"My husband received home therapy after suffering a stroke and heart attack and being treated for lung cancer. VNA provided physical and occupational care along with nursing care. They were all terrific."

"The VNA has been awesome for us. The caring individuals who have come to help my parents as they deal with dementia issues have been wonderful. They are professional, kind and understanding. The help has been immeasurable and greatly appreciated. Thank you!!"

We help our clients enjoy their optimum level of independence and best possible quality-of-life.

VNA is skilled at providing temporary, short-term and ongoing, long-term care.

We're at home providing care...

We are changing the course of lives each day:

“My visiting nurse is very caring and professional. When I developed a leg infection after only two visits, she advocated with my family doctor for immediate hospitalization. It saved me from much tougher treatment. I would trust her and her team any time. I'm out of the hospital and working with them again.”

“VNA provided excellent care for our family member. Our nurse went out of the way to make sure appropriate care was provided...the physical therapist understood exactly how to help with mobility. I highly recommend this nursing agency.”

One call for all of your needs...

VNA's next remarkable client story could be your own. There truly is no place like home — and we'll meet you there with home care solutions whenever you or a loved one require our assistance. For further information, call us at **1-800-WE VISIT.**

Safe in the comfort of home...

There's a distinct sense of reassurance and normalcy associated with being at home. For over 125 years, Visiting Nurse Association of Northern New Jersey (VNA) has been making the goal of returning home safely or remaining in the comfort of home a reality for individuals with challenges related to serious illnesses, injuries, disabilities or advanced age.

Today's dedicated VNA nurses are carrying on our distinguished tradition of caring.
